Why Wedding Ballet Slippers Continue To Be Popular With Many Women

When you see how popular high stiletto heels are it may surprise you to learn that their opposite, **wedding ballet slippers**, are still so popular with women choosing their wedding footwear. Wedding ballet slippers are soft, comfortable shoes with soft soles and no heel. They look very similar to the soft leather shoes that ballet dancers wear, which is where this shoe style gets its name from. Unlike real ballet slippers, wedding ballet slippers are usually made of silk or satin instead of leather and are usually a pale color such as ivory, white or cream.

If you are having a wedding that will be taking place outside such as a wedding on a lawn or on a beach, wedding ballet slippers may be a great choice for you to wear. They will not sink into soft ground although if you are getting married on a beach you may want to wear sandals instead so that sand does not get trapped inside your shoes.

For women who love the style of wedding ballet slippers but are worried that they are too plain, it may take a bit of searching but you should be able to find a pair that meets your needs. Look for pairs that have embellished uppers. They may have beads or embroidery which can add to their level of visual interest. You may also be able to dress up a plain pair of wedding ballet slippers using clip on bows or decorations. These can make plain shoes look very dressy while not causing you to sacrifice on comfort.

When choosing your wedding ballet slippers you may want to keep a few guidelines in mind. You should consider purchasing slippers that are made out of the same material as your dress. This can be especially important if you have a dress that shows your shoes. A silk dress may look odd with satin ballet slippers and vice versa.

You also want to make sure that you choose a pair which is the same color as your dress. A white dress will look odd if you are wearing ivory or off-white **wedding ballet slippers**. If you choose ballet slippers that are made out of fabric you can often pay the store where you purchased your dress to dye them so that they match perfectly. This can be more difficult if you are wearing leather ballet slippers.

Taking the time to explore your options is always a good idea when it comes to wedding clothes. Remember to wear your shoes while having your dress altered and you can ensure that you will look and feel your best on your special day.
